SUMMARY

Results-driven UI Lead Engineer with over 10 years of experience in leading and executing large-scale UI projects. Proven track record in strategic planning, cross-functional team leadership, and delivering modern, efficient user interfaces. Expert in driving the end-to-end project lifecycle, from ideation to implementation, with a focus on aligning technical solutions with business goals.

WORK EXPERIENCE

UI Architect & Lead Engineer, FitBUX LLC — **Dec 2023 - Present**

- Spearheaded the redesign of FitBux's UI using Elastic UI, React, and TypeScript, enhancing usability, scalability, and performance.
- Transitioned legacy code to modern, efficient structures, significantly improving app performance and user satisfaction.
- Directed cross-functional teams, ensuring consistent design language and streamlined development processes

Senior Front-End Engineer, HUVR Data LLC — **Dec 2022 - Dec 2023**

- Led the development of interactive UIs using Material UI and React.js, improving development efficiency and user experience.
- Implemented reusable components and integrated Redux for efficient state management.
- Mentored junior developers and established best practices in UI design.

Senior Software Engineer, IBM Quantum — **Nov 2018 - Dec 2022**

- Led development for IBM Quantum's flagship web application, enhancing brand authority and achieving #1 SEO growth for key terms.
- Directed multi-disciplinary teams in project execution, ensuring high-quality, performant web applications.
- Contributed to national campaigns and improved site accessibility and performance.

Senior Software Engineer, IBM Watson Education — **April 2016 - Nov 2018**

- Developed IBM's first AI-driven classroom management app, focusing on scalability and user accessibility.
- Collaborated on strategic planning for feature development, enhancing user experience.
